

# FISHING JAR « Z »

Other name : Hydraulic Fishing Oil Jar Type "Z"

## DESCRIPTION

The Hydraulic Fishing Jar is a straight-pull actuated tool delivering upward blows. It is used when merely pulling on a fish fails to free it from the hole

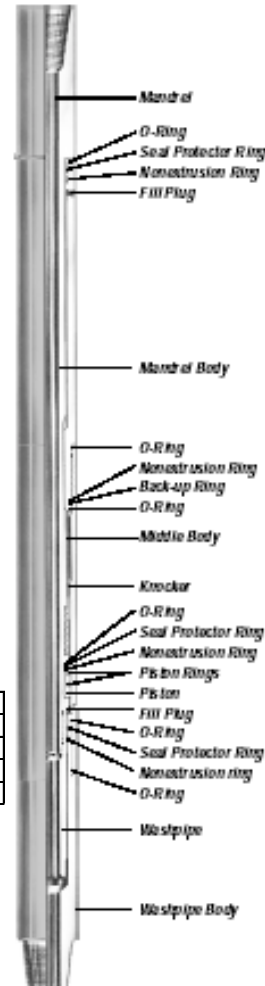

## USE

The Hydraulic Fishing Jar is used for fishing, testing, coring, reaming, light drilling, side tracking, and washover operations.

When used in fishing operations, the Hydraulic Fishing Jar should be installed immediately below the drill collars, and just above the chosen fishing tool. For a maximum effectiveness, a Jar Intensifier can be installed about four drill collars above the Jar Z.

## STANDARD SPECIFICATIONS
